

Learning to Share

I like playing with my toys.

Sometimes, other people might like to play with my toys too.

If someone asks nicely to play with my toys, I can share my toys.

I can tell them the rules that keep the toys safe and I can play in the game too.

I can ask a grown up to help me share my toys.

Sharing toys is a good way to make new friends.

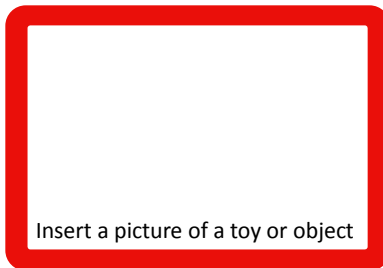

When someone has finished playing with my toys, they will give it back to me and say 'thank you'.

I can share my toys and make new friends.
